RE: Public Notice of Public Water System Monitoring Requirements

Dear Resident,

The Village of Utica Public Water System must issue public notice for not meeting the following monitoring requirements:

- 2022 – Disinfection By Products. The monitoring schedule for this was 7-1-2022 through 9-30-2022 for a dual sample from two locations. The samples were collected on 6-29-2022 and later analyzed however they were not collected during the monitoring schedule. The results of these samples are reflected on the CCR.
- 2023 – Total Coliform. The monitoring schedule for this was 2-1-2023 through 2-28-2023 for two samples from two different locations. The samples were not collected during the monitoring period. Total Coliform sampling was continued as required in March 2023.

The Village is committed to its residents, water system, and compliance per the Ohio EPA. The Village will continue to work toward monitoring and compliance in timely manner. Should you have any questions regarding this notice, please call the Village offices. Attached are public notices as required as to form by the Ohio EPA for each monitoring requirement described above.

Thank you  
Village of Utica
